# Electronics Manufacturing Services

Millison Technology is a flexible, responsive organisation, dedicated to the manufacture of your products.

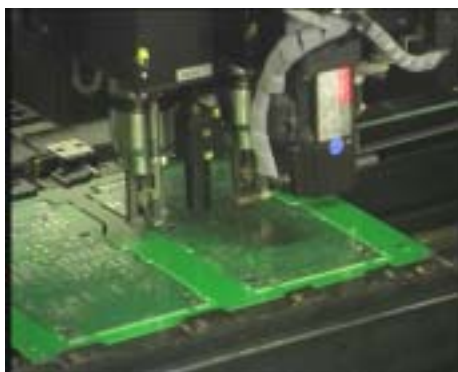

Millison provides the full range of services from design and prototyping, through to finished product assembly, distribution and after sales support.

## Services:

- Full Production Service.
- Surface Mount Assembly.
- Pin Through Hole assembly.
- Prototype Assembly.
- PCB layout.
- Electronics design.
- Design for manufacture.
- Component procurement.
- Finished product assembly.
- Inspection and test, including AOI.
- Turn-key Manufacture.

*SMT Manufacture (Line B)*

We can provide you with:

- Fast effective prototyping services.
- Express manufacturing services.
- Full turn-key manufacture.
- High volume production runs.
- Low volume production runs.
- High manufactured quality.
- Expert DFM feedback.
- IPC certified designers.
- Full engineering support.
- ISO9001 approval.

## Capabilities:

- Surface Mount Assembly.
- Fine Pitch and BGA.
- Pin Through Hole Assembly.
- Wave Soldering.
- Hand Soldering.
- Two Surface Mount Lines.
- Multiple Production Lines.
- Finished Product Assembly.
- Testing Services.
- Automated Optical Inspection.
- Purchasing / Procurement.
- Warehousing.

## Millison Technology

Millison competes in the market place through providing value to our clients.

We work to provide you with the lowest 'total cost of ownership' and highest value through:

- the right people and training.
- low overheads.
- utilising flexible production equipment.
- right sizing our production equipment.
- reducing complexity.
- reducing variation.
- increasing quality.
- continuously managing production capacity.
- continually working with you to improve the manufacturability of your products.
- continually improving our systems, processes and procedures used to manufacture your products.
- managing component supplies to ensure the ongoing reliable delivery of your product.

### Company History:

Millison Technology was founded in 1990, originally to serve companies that required support for their engineering departments.

Over time, Millison has grown to provide a full range of design and assembly services to our clients.

After 8 years in Keysborough, in October 2001 we expanded our facilities, moving to 8250 sq ft of factory area in Dandenong and adding a second surface mount production line to augment our existing production capabilities.

### The Millison Advantage:

Millison Technology provides the full range of manufacturing, design, and engineering services.

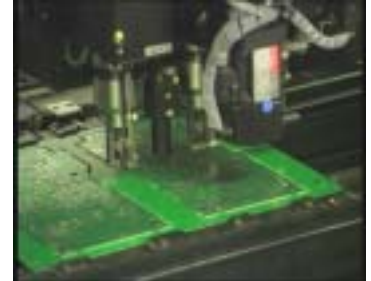

Total integration as well as unmatched enthusiasm from our staff provide you with the ultimate solution for your electronics manufacturing needs.

### Quality, Reliability and Dependability at a Fair and Competitive price !

For smooth product introduction and project management, through to full-scale turnkey manufacture and product improvement, contact Millison today.
